

Proven Payment Technology for the Modern Laundromat

Contactless card and mobile payments

Data to drive decision-making

In-store and remote management

Promotions and marketing

Wash-Dry-Fold solutions

Proven reliability

Contactless NFC Technology

No inserts, no swipes, no wear-and-tear. Same reader for card and app.

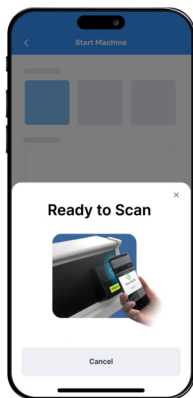

How it works

- Hold laundry card or phone near card reader to pay for a cycle
- Use Value Add Center (VAC) kiosk to reload balance on laundry card or to buy a new card
- Reload mobile app balance directly within the app

Payments towards the balance go to your bank account – you keep the float!

Use card or an app to pay

Value Add Center (VAC) Kiosk

15" Touchscreen

Features an intuitive interface, 3D animations depicting usage, English/Spanish languages

Laundry Card Holder

Card Dispenser

Bill Acceptor

Up to 1,000 bills. If internet goes down, can still reload card with cash.

Antenna

Wireless communication with readers

Payment Terminal

Takes chip (EMV) and mag credit/debit cards, and Apple Pay/mobile pay

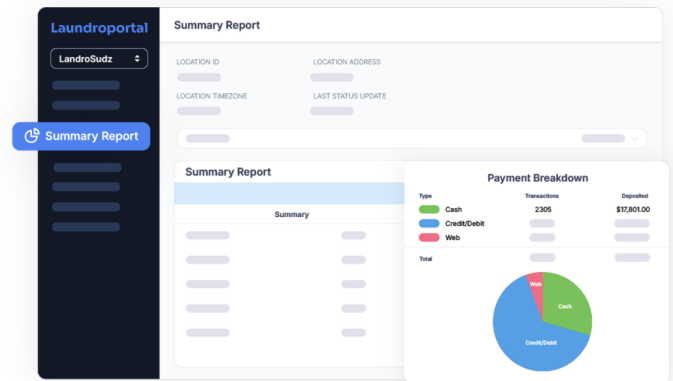

Receipt Printer

Rear-door model shown:
In-wall cabinet dimensions: 23"x23"x10"

Front-door and Cash-only models also available.

Store Management

- Get equipment diagnostics and notifications of problems
- Get detailed usage reports
- Track cash and collections
- Track specific customers
- Provide refunds remotely or at kiosk
- Dispense cards remotely or at kiosk
- Set vend pricing and time-of-day/week schedules including **Last Wash**
- Set promotions and gauge effectiveness

Wash-Dry-Fold and POS

- Use staff cards to track Wash-Dry-Fold usage
- Accept laundry card or app at your point-of-sale and keep cash away from the register!

Desktop POS reader

Ancillary Application

- Use readers for door access control (e.g bathrooms) – just tap to unlock
- Set vend pricing, time of day configuration, and custom promotions
- Put readers on vending machines such as VendRite and even on arcades or massage chairs

Just a few reasons to choose **Laundroworks**

REASON 1

Dead Simple to Use

Tap/hold NFC card or app to pay at the machine, reload balance instantly. Anyone can use it - leave the coins in the past and automate your store.

REASON 2

Trusted, Proven, and Reliable

Installed at 4,000+ locations, Laundroworks works on all brands and models and is trusted by the largest equipment dealers and chain-store operators across the US.

REASON 3

Packed with features, including...

- Multi-vend remote price control
- Customer notifications when cycle is finished
- Customers can check their usage and replace lost cards at the kiosk; without an attendant
- Capture customer contact at the kiosk for marketing automation
- Time card functionality
- Bonuses and promotion capabilities
- Remotely updatable firmware

REASON 4

Competitively Priced

Serious payment technology without shortcuts and at lower prices than other reader-based systems.

REASON 5:

Advanced Cents Integration

- Laundroworks card reader integration at the
- Cents POS enables payment processing across both systems
- Exclusive machine data integration allows
- Laundroworks equipment to send real-time operational data directly to Cents POS for business insights
- Single-vendor solution
- Direct order-to-machine functionality sends wash & fold and pickup & delivery orders from
- Cents POS to the Laundroworks system using an exclusive API integration
- Penny & Laundroworks VAC kiosk integration for laundry cards
