

Revolutionizing Laundry Operations: Mobile App for attendants

Innovative NFC-based app technology designed specifically for laundry operators. It's the ultimate tool for on-floor management, empowering managers, attendants, and employees with unprecedented control and efficiency.

Comprehensive floor management

- Real-time machine tracking: Monitor and control all machines from your mobile device
- Remote machine activation: Start machines remotely while in-store, with built-in theft protection
- Cents POS integration: Connect directly to your Cents POS system for streamlined operations

Enhanced Wash-Dry-Fold (WDF) management

- Order tracking: Assign and monitor WDF orders to specific attendants
- Centralized platform: Simplify attendant-executed WDF processes
- Efficient intake: Streamline the order intake process without the need for additional tablets

Advanced security and control

- Theft prevention: Mitigate employee theft and unauthorized machine use
- Usage limits: Set daily limits for machine starts, refunds, and card dispensing
- Audit trail: Comprehensive reports for fact-checking employee actions
- Employee time tracking: Employees clock in and out effortlessly with a simple tap of their phone using NFC technology
