

# Power multiple laundry rooms with reliable and sophisticated technology

Full-service control, fewer service calls, and higher profitability

If you're managing laundry rooms across multiple properties including apartment complexes, dorms, senior living, hospitality properties, or other commercial locations, you need technology that keeps up. Laundroworks delivers fully connected systems purpose-built for route operators, helping you reduce service calls, improve tenant experience, and unlock scalable growth.

## A flexible system for every property type

Whether you're servicing garden-style apartments or high-rise buildings, you get services built to improve efficiency:

Mobile App

Stored Value + Kiosk

Online Portal + Remote Loads

Credit/Debit at Machine

Hybrid Setup

## Why Laundroworks for your business

### 100% Connected Ecosystem

Get real-time visibility across all properties. No blind spots, just full connectivity across every kiosk, reader, and app.

### Enterprise-Grade Remote Management

Make price updates, issue refunds, diagnose problems, and monitor usage without stepping foot onsite.

### Smart Hardware that Installs Fast

From payment kiosks to mobile-first apps, install in under 60 minutes and integrate seamlessly with existing machines.

### Support You Can Count On

Access a route-specialized support team that resolves most issues remotely.

# Products built for route efficiency

## Value Add Centers (Kiosk)

- Accepts cards, mobile wallets, and/or cash
- Remote management and usage insights
- Built-in connectivity and optional card dispensers
