# Laundroworks
Powered by cents

Monitor and control your entire laundry system from anywhere

LaundroPortal is a cloud-based, real-time management platform for laundromat owners and operators. It gives you remote control over your entire laundry ecosystem— no need to hover over machines 24/7.

Real-time insights and diagnostics

- Live machine health diagnostics and alerts
- Instant email notifications for machine errors or system reboots
- Detailed machine activity tracking
- Financial dashboards for cash, card, and vend volume

Smart controls and operational efficiency

- Remote vend price scheduling
- Instant issue refunds, ban cards, or handle lost-card situations
- Card dispensing performed remotely
- Secure, remote machine cycle activation

| Live diagnostics and alerts | Vend price and promo scheduling | Refunds and card banning | Financial reporting | Custom user permissions | Remote cycle activation |
