

# Multi-family laundry made easy

Streamline your multi-family laundry operations with our Value Add Center (VAC). This central kiosk allows residents to easily load and obtain laundry cards while wirelessly managing all card readers, simplifying both resident use and facility management.

## Your all-in-one solution for multi-family laundry

Choose the VAC smart kiosk model that works best for you.

### Cashless

This unit accepts a variety of credit/debit payment methods, enabling a fully automated laundry room.

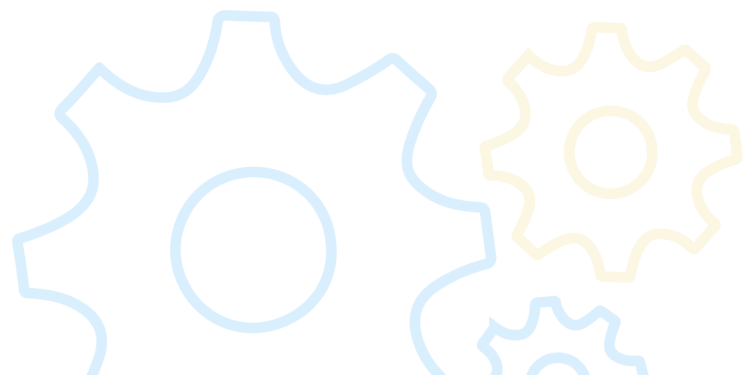

- ✦ Accepts chip cards, magnetic stripe cards, Apple Pay, and Google Pay
- ✦ Bright, easy-to-read LCD display
- ✦ EMV and NFC compliant
- ✦ Card dispenser (optional)
- ✦ 4G modem kit for internet connectivity (optional)

### Cash Only

This simple, high-security unit only accepts cash as payment.

- ✦ Bright, easy-to-read LCD display
- ✦ MEI bill acceptor
- ✦ Extremely ruggedized design with hingeless door
- ✦ Medeco lock
- ✦ Card dispenser (optional)
- ✦ 4G modem for internet connectivity (optional)

## Combo

Maximize laundry room revenue with the Combo unit, which accepts both cash and credit/debit payments.

- ⚙️ Bright, easy-to-read LCD display
- ⚙️ EMV and NFC compliant
- ⚙️ MEI bill acceptor
- ⚙️ Extremely ruggedized design with hingeless door
- ⚙️ Medeco lock
- ⚙️ Card dispenser (optional)
- ⚙️ 4G modem for internet connectivity (optional)

## Mini Vac *\*This is useful if laundry usage is built into the rent.*

This is a low-cost solution for small laundry rooms. The Mini Value Add Center (VAC) is used to add value to laundry cards from requests made online. A request can be made in one of three ways:

1. Via the MyLaundroworks web app: Tenants use a credit card to make payments online
2. Using the LaundroPortal: The system operator makes a direct request to load a particular laundry card with value
3. Through use of the LaundroPortal: The system operator configures automatic monthly reload requests for a set of laundry cards

## Technical Specifications

⚙️ Internet: Wired/Ethernet with DHCP (dynamic IP). Do not use static IPs.

	Weight	Power	Bill acceptor	Card dispenser
